

**A Sampling of Cab and Chassis Features and Options...**

Marauder® Shown

**Barrier-Clearing Doors Standard on Marauder®**

- Helpful where medians and guardrails prohibit the opening of full-length doors
- Each door terminates near floor level and includes a special weather-tight seal
- Optional long doors offer traditional look
- Front and rear cab doors are 34.75" wide at opening
- All entries have been designed with expanded metal extra-wide and deep steps to promote safe footing and prohibit accumulation of ice and other debris on the step area

Marauder® Shown

Attacker® Shown

**Extreme Duty Interior: LINE-X Protective Coatings and other Areas of Cab Interior**

- LINE-X coating on engine tunnel standard
- Helps insulate sound and temperature
- Protects from damage
- Easy to clean work surface
- UV Stabilized

Marauder® Shown

**Clear-Sight Dashboard Design**

- Superior ergonomics for control & vision
- Flexible switch panel & radio placement

**Seats**

# Marauder® and Attacker® are Available with Pumpers, Pumper-Tankers, Aerials, Rescue and Command Apparatus

Seagrave has built a reputation for safety, longevity, durability and dependable performance, proven in the most demanding fire departments across the nation.

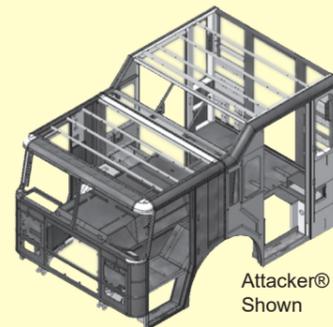

Marauder® Shown

## Safety Cage Cab Design

Seagrave cabs are built with more structural integrity than any other cab on the market. Both Marauder® and Attacker® feature Seagrave's exclusive safety cage cab design with a stainless steel structure that surrounds firefighters to keep them safe to and from the scene.

- Each piece of tubular stainless steel substructure is welded.
- Stainless steel cab door skins and cab door substructure are welded.

Attacker® Shown

## INTELEX® PLUS

Multiplex wiring is standard with Marauder® and Attacker®. Hardwire is available with either.

## Cab Access Doors

Marauder® features choice of 25" high or 37" high cab access doors on both sides.

## Heavy Duty Frame and Bumper Extension

- Lifiable, towable bumper extension.
- 120,000 PSI Variable-Section Frame available on wheelbases over 180" (tapers from 10.25" at the ends, to 12.5" at the center to eliminate any frame flex).

## DEF Tank

- 10 gallon capacity means less refilling
- Strategically located separate from fuel inlet location

## Which Chassis is Right for You?

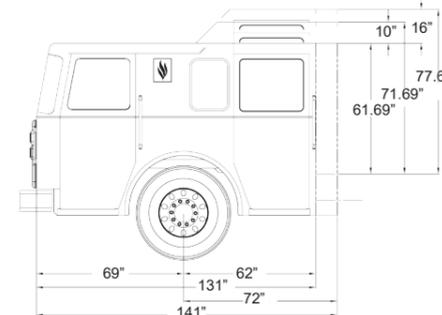

The Marauder® and Attacker® Cab and Chassis are built to operate in severe-duty environments. The Attacker® is a split tilt version. Both support options for a variety of configurations. Contact a Seagrave Sales Representative to learn more.

## Standard Flat Roof or Raised Roof Options Available
